

**Advanced Ceramics and Applications XIV:
New Frontiers in Multifunctional Material Science and Processing
Serbia, Belgrade, September 21st-23rd 2026.**

ACA Conferences annually bring together leading scientists, engineers, professors, PhD students, experts and manufacturers of advanced ceramics, glasses and refractories to exchange information on their key achievements and research projects. Advanced ceramics play important roles in electronic and information industries, renewable energy utilization, environmental protection, security, space technology, cultural heritage restoration, prosthetics fabrication, etc. The ACA Conference has been initiated with an outstanding Scientific Committee from well-known Institutes/Universities across the globe, making it a specially designed cluster conference that covers all aspects and fields of advanced ceramic research.

Serbian Ceramic Society (SeCerS) was started in 1995/1996 and fully registered in 1997 as Yugoslav Ceramic Society. Since 2009, it has continued as the Serbian Ceramic Society. Serbian Ceramic Society is one of the few Ceramic Societies in the South-Eastern Europe, with members affiliated with more than 20 research institutes and universities.
